

OFFICIAL STATEMENT

Released 21/09/2021

Regarding Violent Protesting

We strongly condemn the recent violence towards Victoria Police Officers and Journalists during the recent Protests.

Workers were hurt today while doing their job, no Union supports that.

Regarding Vaccinations

We are not Medical Experts.

This is why we follow the health advice of medical experts, which is overwhelmingly that people should get vaccinated.

We encourage Security Workers to follow the advice of Medical Experts and to speak to their doctor about any personal medical concerns.

Regarding Mandatory Vaccinations

We do not support Employers mandating vaccinations exceeding the mandates of the Victorian Government.

We do support Employers prioritizing employees who are fully vaccinated for frontline work until immunity can be tested for.
